"If you want to laugh, it's worth seeing because there are a lot of laughs in it. But it's not worth the \$3.50 if you want to learn something from a movie because there is very little story line to it. I guess it's a good movie for kids."

"It's more for the kids but I really liked it because Bill Murray is a favorite of mine from *Saturday Night Live*. He plays a perfect part in the movie. Another thing that impresses me is it's a Canadian film. I think it will win an award."

Jim Andrews

★★★

"It's a very enthusiastic, fast-moving movie. It goes to the extreme and borders on the ridiculous at times but it's all in good fun. Bill Murray gives an excellent performance. I thought he put a rare slice of himself into the movie."

"It's an excellent movie. It's really funny and Bill Murray is great. I liked the basketball game and the marathon race. There's nothing I didn't like about it except I expected it to be a little longer. It's only 1½ hours long."

"It's great, clean fun for children and there isn't enough of that in movies today. I think it's a movie all children should see. Bill Murray is terrific in it. I don't know why they called the movie *Meatballs*. He is always eating hot dogs."
