Dear Andre,

Did you know that Ilsa # 1 and # 2 are the new camp cult (the theatres' own term) of the art-house circuit here in LA?! Attracting big crowds on the night they play, and the audiences shriek with laughter and clap wildly at each new situation, or peerless line of dialogue! Who said Ilsa was dead?! What a pity the 'Tigress' can't be renamed its original title "Ilsa, Blood-Beast of Siberia", so she can join them and we could have Ilsa festivals and Retrospectives!

So what better time to be reminded of the lady and ask whether there are any more residuals payable to me? Or 'any' in the case of Harem-Keeper, as I think she's got to net a profit of \$100,000 before I get my first cheque. I think she was reasonably close the last time I looked about two years ago, but I don't know what's happened since then.

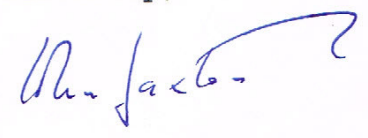

Anyway, could you let me know?

TO 9/30/80
\$ 300,000

PAY OUT AT 350000

All the best,

Yours sincerely,

John Saxton
