Victor Mallick has it all - money, looks, charm, and the woman of his dreams. But most of all he has control. Until the night of his stag party.

As his buddies from the old days mingle awkwardly with his new moneyed friends and associates, a couple of strippers arrive to liven up the evening. When one of the strippers is accidentally killed in some innocent rough housing,

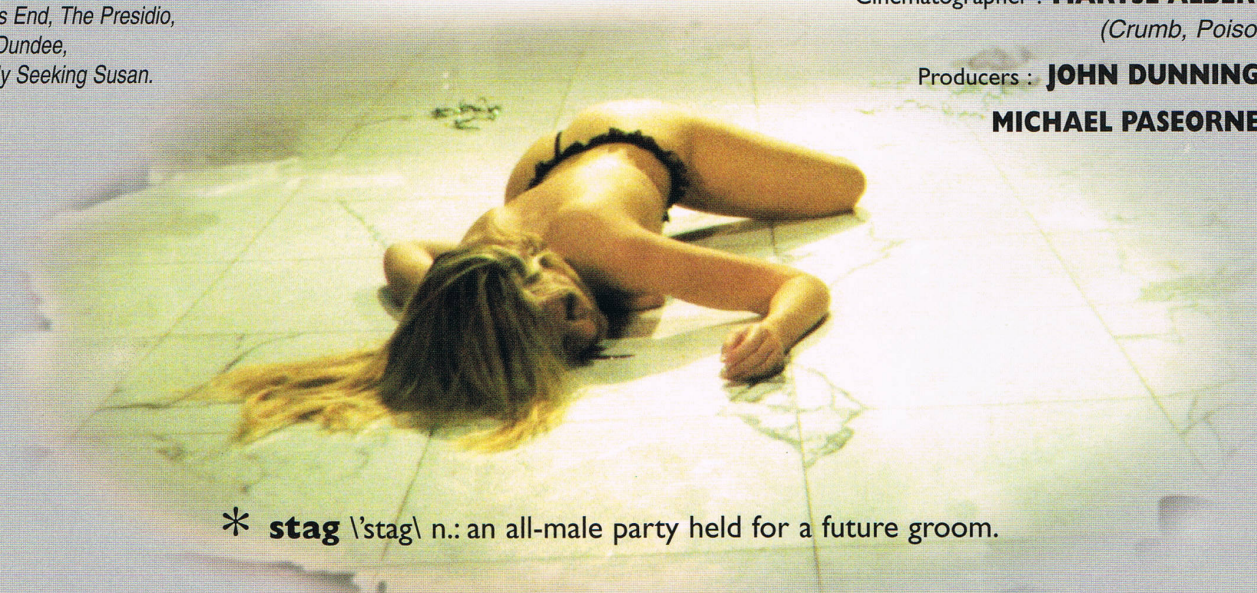

Victor and his friends suddenly find themselves in a nightmare from which they cannot wake up. Facing the possibility of jail time for the accident, the men must decide what story to tell the world and, most importantly, what to do with the only witness - the other stripper.
